

Diversity and Inclusion

The Human Rights Commission estimate that 11% of the Australian population identify as gender diverse. Members of these communities:

- ❖ Continue to experience discrimination
- ❖ Often hide their identity when accessing services, at work and at community and social events
- ❖ Are 3 times more likely to experience depression

Join the Victorian Commissioner for Gender and Sexuality, Ro Allen, to talk about diversity and inclusion. The Commissioner will speak about Diversity and Inclusion and help facilitate a workshop to equip the Healesville community to remove barriers to inclusion.

Commissioner Ro Allen
